

Job Vacancy: Part-Time Project Co-Managers

Institution: Namibia University of Science and Technology (NUST)

Department: Land and Spatial Sciences (DLSS)

Location: Windhoek, Namibia

Duration: 20 months (Part-time)

Role

The Department of Land and Spatial Sciences (DLSS) at NUST is a land governance research, networking, teaching, and learning leader. As the coordinating body for the Southern Africa node of the Network of Excellence in Land Governance in Africa (NELGA), DLSS seeks two (2) Part-Time Project Co-Managers to contribute to capacity development and land governance innovation in Southern Africa.

This project-based role offers an excellent opportunity to gain high-level research, project management, and networking experience while working on impactful international and local research initiatives.

Key Responsibilities:

- Plan and manage the delivery of project outputs.
- Oversee project deliverables and financial resources.
- Supervise consultants and ensure quality control of deliverables.
- Monitor project progress and resource use, initiating corrective actions when necessary.
- Report to project partners and stakeholders.
- Support the documentation of project-based studies and research activities.
- Contribute to research design and support project administration, including maintaining financial records.
- Engage in country and international research tasks, including data collection, project communication, report preparation, fieldwork, and publications.

Requirements

- Honours graduate or final-year student in a relevant academic programme at NUST.
- Strong commitment to excellence and high-quality outputs.
- Excellent teamwork, communication, and people skills.
- Willingness to learn and ability to meet strict deadlines.

How to Apply:

Interested candidates should submit their CV, cover letter, and relevant qualifications to echigbu@nust.na by **12 February 2022**

Join us in strengthening land governance research and innovation in Southern Africa!
